PROFESSIONAL EXPERIENCE

Frontend Developer and Designer | 2022 – 2025

Compoze Labs

- Helped design and build a component-based design system in Storybook using React and Chakra UI. This helped our teams stay consistent across projects and saved us dev time
- Worked on frontend development and design for multiple client projects using React Web Frameworks (Next.js), React Native and Typescript
- Built features with a focus on accessibility and usability, making sure apps were inclusive and user friendly

Frontend Developer | 2021 – 2022

KRUTSCH

- Helped turn internal design work into a reusable design system using Material UI, Storybook and React
- Built client applications with React Native, Swift and Svelte
- Learned Liquid to create custom components and styles for multiple Shopify storefronts

UX/UI Tutor and TA | 2020 – 2021

Trilogy Education Services

- Answered student questions and assisted with grading assignments, group projects, and presentations
- Met one-on-one with students to provide guidance on design, HTML/CSS, JacaScript, and Git

---
